

```
std::integral_constant  
< bool, is_same< short,  
  T >::value||is_same< int,  
  T >::value||is_same< long,  
  T >::value||is_same< long  
  long, T >::value||is_same<  
  unsigned short, T >::value||  
  is_same< unsigned int, T >::value|  
  is_same< unsigned long, T >::value|  
  is_same< unsigned long long, T >::value >
```

A diagram consisting of a blue arrow pointing from a grey box on the right to the code block on the left. The grey box contains the text 'scifir::is\_integer\_number< T >'. The arrow points to the 'is\_same' template arguments in the code block.

```
scifir::is_integer  
_number< T >
```
